

## BOMA BEST Consulting Services

GreenCheck provides full consulting and advisory support for property managers aiming to achieve BOMA BEST certification or to renew their facility's existing certification.

### BOMA ENGAGEMENT

We will interact with BOMA on your behalf to get your property registered on BOMA's new online portal, work with property teams to establish channels of data retrieval and submission, and facilitate requests for supplementary information.

### DOCUMENTATION & QUESTIONNAIRE COMPLETION

Our team will collect and review relevant facility documents and policies to ensure that BOMA BEST Practices criteria is met. Any further actions required to meet BEST Practices criteria will be identified and communicated.

Following an assessment of previous BOMA questionnaires (where applicable) and meeting with property teams, we will provide advice on actions required to meet your target BOMA level.

Our team will then provide support in the completion of the BOMA questionnaire to ensure all requirements are met.

### ENERGY & WATER AUDITS

An assessment of the facility's energy and water systems will be undertaken to determine opportunities for energy and water conservation upgrades. The Energy Assessment conducted will be aligned with the ASHRAE Level 1 standards in order to fulfill the requirements of BOMA BEST Practice 2. Similarly, the Water Assessment conducted will fulfill the requirements of BOMA BEST Practice 5.

### WASTE AUDIT

Our team of Sustainability Specialists will support the requirements of BOMA BEST Practice 13 and conduct a waste audit of your facility to identify the type and quantity of waste being generated. The waste audit will be performed in accordance with the BOMA BEST Waste Audit Requirements to comply with this BEST practice.
